GUIDELINES FOR HANDLING THE CERTIFICATE:

For the purpose of marketing the products, the certificate may be used only provided the normative documents mentioned on the previous page have not changed. If the harmonized or set standards concerning the certified products are changed or new standards are issued it is necessary to check applicability of the certificate.

The certificate may be used as a certificate for the products specified on pages 1 and 2 only. This rule shall also be applied to its use in promoting, advertisement and commercial materials. Unauthorized or deceptive use of the certificate may be sanctioned (Art. 19 of Act No. 22/1997 Coll., on technical requirements for products and on amendments to certain Acts, as amended).

The data contained in the certificate may be neither changed, amended, nor modified.

The certificate cannot be used as a certificate for the products on which a change influencing conformity with the technical requirements specified on the previous page has been done without approval of the Engineering Test Institute.
